

Biology

Chapter 19 Vocabulary

human

Types of Behaviour

-
-
-
-

anatomy

physiology

anatomical position

Relative Directions on a Body in Anatomical Position

-
-
-
-
-
-
-
-
-

histology

Eleven Systems of the Body

-
-
-
-

-
-
-
-
-
-
-

epidermis

dermis

subcutaneous

Six Ways the Integumentary System Serves the Body

-
-
-
-
-
-

follicle

sebaceous gland

sweat gland

Types of Bones

-
-
-
-

Purpose of Skeletal System

-
-
-

-
-

Regions of the Long Bone

-
-
-

articular cartilage

periosteum

compact bone

marrow cavity

endosteum

red bone marrow

yellow bone marrow

spongy bone

Haversian system

osteocytes

cartilage

ossification

ligaments

sutures

synovial membrane

tendons

muscle fibers

skeletal muscle

diaphragm

visceral muscle

cardiac muscle

origin

insertion

action

oxygen debt

Types of Muscle Contractions

-
-
-
